No. REF. 18-110747-A

Call for Tenders relating to the development of Airport Data Toolkit including Airport information as services (AlaaS) and Digital event and NOTAM origination tool (DENOT).

The European Organisation for the Safety of Air Navigation (EUROCONTROL) was founded in 1960 by six States. It now has 41 Member States committed to building, together with its partners, a Single European Sky that will deliver the air traffic management performance required for the twenty-first century and beyond. In its Single European Sky II legislation, the European Commission created the Network Manager function so as to optimize the aviation network's performance.

The Airport Data Toolkit project is an INEA (the EC Innovation and Networks Executive Agency) co-funded project which seeks to establish modernized ways of airport data sharing based on cloud computing, SWIM (according Eurocontrol specifications and in alignment with ICAO SWIM concepts), service orientation (SOA principles), and collaborative community approaches. In the context of SWIM, the digitization and provision of data is done close to source, in order to improve the integrity and the efficiency of the process. This requires the provision of digitalization means that support data originators whilst also aligning to the SWIM specifications related to the context of the PCP.

The Airport Data Toolkit will provide airport side encoding means for specific events, such as runway closures, airspace activations, navaid outages, etc., thereby filling an existing gap. In addition the toolkit will work on airport mapping baseline data sharing. This is needed for the envisaged Digital NOTAM origination application and other downstream SWIM enabled applications (e.g. situational awareness).

1. **If you are already registered in the EUROCONTROL Supplier Portal, please send an e-mail to the Point of Contact mentioned above to get access to the documentation.**
2. **If you are not yet a EUROCONTROL supplier, please follow the 4-step process described on the following link:**

<http://www.eurocontrol.int/articles/supplier-portal-registration-procedure>

3. EUROCONTROL accepts no responsibility whatsoever for the completeness, accuracy and/or timeliness of the transmission of the electronic documents (nor for the electronic documents themselves).
4. Submission of tenders shall **be made electronically** and shall be exclusively made in strict accordance with the instructions given in the "NOTICE CONCERNING THE PRESENTATION OF TENDERS".
5. You may:
 - a) print out the documents;
 - b) forward the documents further on a strictly need to know basis (always fully acknowledging the source, i.e. EUROCONTROL), and
 - c) use print-outs of the electronic i-call for tenders documents for the submission of tenders (especially Form i-AF32CFT).
6. You may not:
 - a) modify, edit and/or change the electronic documents;
 - b) transmit such documents to any third person who has no need to know them;
 - c) post such documents on any private or public website;
 - d) alter the originating source (EUROCONTROL) and or copyright signs etc., and
 - e) transmit the documents without indication of the source.
7. EUROCONTROL reserves the right not to send you the tender documentation, if your company is considered as incapable of submitting an offer to the i-call for tenders (size of the project, complexity etc.).

An environmental notice:

With a view to reduce the exponential growth of paper consumption, we would invite you only to print out electronic documents received and/or request paper copies of the price enquiry documentation if you are actually considering to submit a tender.
