Acquisition and delivery of 28 inch 2Kx2K Square Displays for the EUROCONTROL Maastricht UAC.

The Maastricht UAC is seeking tenders who can provide and deliver 28 inch 2Kx2K Square Displays for the EUROCONTROL MUAC.

EUROCONTROL

The European Organisation for the Safety of Air Navigation (EUROCONTROL) was founded in 1960 by six States. It now has 41 Member States. EUROCONTROL's mission is to harmonise and integrate air navigation services in Europe, aiming at the creation of a uniform air traffic management (ATM) system for civil and military Users, in order to achieve the safe, secure, orderly, expeditious and economic flow of traffic throughout Europe, while minimising adverse environmental impact.

Maastricht Upper Area Control Centre (MUAC)

The Maastricht Upper Area Control Centre (MUAC) is part of the EUROCONTROL Agency and is tasked with the provision of Air Traffic Control (ATC) services to civil air traffic in the upper airspace over Belgium, Luxembourg, the Netherlands and the north-western part of Germany. A Deutsche Flugsicherung (DFS) unit is co-located at MUAC, controlling Operational Air Traffic (OAT) over North-West Germany.

The equipment to be acquired will be used to in two projects: New Atco Displays (NADI) and New Atco Consoles (NCON). The NADI project will replace the current used MDP471-2 Displays while adding some additional functionality in the area of monitoring and configuration. The current console furniture will not be changed in the context of the NADI project.

The NCON project will re-use the displays. This implies that the same display needs to be able to support several mounting possibilities.

Who should tender:

This invitation to bid addresses all companies that are in a position to offer and deliver the goods as described above.
